Mike Rainville-Discussion Regarding Pitt House. (Historical Society Members also invited)

Due to a scheduling error Mr. Rainville did not attend the meeting. There was a discussion between the Board and the Historical Society regarding the use and the condition of the Pitt House. Mark Thibodeau tried to explain the Society that there are different building codes for different types of buildings and if they are going to designate the Pitt House as a museum the building would require a sprinkler system. Discussion ensued and it was decided that this should be tabled until the engineer, Mr. Rainville and the Town Building Inspector could attend a meeting
